

PROKOSCH PUMPS & VALVES

*Economic, safe and reliable
shut-off and flow control for
demanding duties and media*

PROKOSCH

ABOUT US

60 years of experience and specialization

A Privately held company founded
in 1957 by Josef Prokosch

Specialized in design, manufacture
and supply of manual and automatic
valves and pumps for flow control
and transportation of solids, liquids,
slurries and hazardous materials.

Flexible and open to customer needs
with all functions from fabrication
to shipping services under one roof.

*Today, we are a dedicated team of around twenty trained
professionals who will personally attend and assist you
with all their experience and expertise.*
